

What is Flash-Dry?

FLASH-DRY is a high-performance hard-surface cleaner that evaporates very quickly and leaves no streaks, smears or residues. It's designed for spray-and-wipe cleaning of glass, chrome and all shiny surfaces. FLASH-DRY kills germs.

Key Benefits

- ✓ Removes smudges, oily films, finger-prints & dirt, fast.
- ✓ FLASH-DRY evaporates very rapidly, so it needs less wiping and the cloth stays drier for longer.
- ✓ Leaves glass smear-free.
- ✓ Anti-bacterial: Kills 99.9% of germs.
- ✓ Anti-static so reduces dust-cling.
- ✓ Pleasantly perfumed to lightly deodorise.
- ✓ Non Dangerous Goods.
- ✓ Safe on window tint film.
- ✓ Versatile – not just a glass cleaner, FLASH-DRY cleans all shiny surfaces.

How Does It Work?

FLASH-DRY contains a specially developed blend of alcohol solvents and low-residue surfactants in an aqueous base. These ingredients dissolve oils and release soilage from the surface being cleaned. The alcohols give FLASH-DRY the ability to kill germs.

For Use On ...

FLASH-DRY will remove smudges, oily films, finger-prints and general soilage from glass, shiny laminates, stainless steel, chrome and perspex surfaces. It is ideal for cleaning windows, mirrors, display cabinets, table-tops, benches, poker machines, and a wide variety of other shiny, hard surfaces.

Technical Data

Properties

COLOUR – Transparent pale-aqua blue liquid
ODOUR – alcohol / floral perfume
pH = 8.5 ± 0.5
FOAM – Medium foam height

Environmental Care

FLASH-DRY conforms with all statutory environmental requirements. It is based on non-toxic ingredients selected to perform efficiently so there is no waste or damage. FLASH-DRY is: Non-flammable, phosphate-free, and based on biodegradable surfactants. FLASH-DRY containers will be cleaned and re-used if returned to Agar Cleaning Systems, significantly reducing plastic usage and waste. They can also be recycled.

Colour Coding

Product identification is made easy with the Agar Colour Coding system. We have 11 different categories of product

that are identified by colour and number. The product itself has this colour. Also, the colour and number are shown:

1. On the bottle label as supplied.
2. On the matching Dispenser Spray Bottle.
3. On the product chart for Colour Coded Cleaning.

This system has benefits of reducing the chance of using the wrong product, making compliance and staff training easy, showing that the correct products are being used and providing information about usage, dilution and first aid.

Product	Code Colour	Code Number	Type
FLASH-DRY	Light blue	5	Glass cleaner

FLASH-DRY is a Colour Code 5 (light Blue) product.

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".
First Certified: 30 April 1996 SAI Certificate No.: QEC7358

Application

Use neat.

Spray a light mist onto the surface then rub till dry with paper towel or lint-free cloth in a circular motion.
If windows are out-of-reach or very dirty, AMMODET should be used in the scrub-and-squeegee method to clean them effectively.

Available in: 750mL, 5L & 20L

Dispensing Accessories:

500ml Code 5 Spray bottle – Code D05

Spray trigger – Code: DTR

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
