

What is Foaming Hand Wash?

FOAMING HAND WASH is a non-thickened liquid hand soap that provides a rich foam lather. It is designed to be dispensed from special foaming hand soap dispensers that deliver the soap in the form of a foam rather than a liquid or lotion. This is a more economical way to dispense the hand soap.

Key Benefits

- ✓ Gentle on the skin
- ✓ Non-hazardous (GHS)
- ✓ Environmentally preferable
- ✓ Economical in use

How Does It Work?

FOAMING HAND WASH instantly produces a rich lather that floats away dirt and grime from the hands and leaves the skin soft and supple. FOAMING HAND WASH contains aloe vera and glycerine to enrich and care for the skin.

For Use On...

FOAMING HAND WASH is a gentle hand cleanser for use in offices, washrooms, and factories where moderate to light soilage must be washed from the hands.

FOAMING HAND WASH is more economical than bar and other liquid soaps because there is no waste, no pilferage and less chance of over-use with FOAMING HAND WASH in the washroom soap dispensers.

Technical Data

Composition

FOAMING HAND WASH is a gentle soap containing a blend of mild coconut oil and corn syrup derivatives conditioned with glycerine and aloe vera and lightly perfumed with a sweet fragrance.

Properties

APPEARANCE - Mobile liquid
ODOUR – Sweet fragrance
pH = 5.5 ± 0.5

COLOUR – Green.

Will not stain clothing or porcelain basins

FOAM – Rich, stable foam

Environmental Care

FOAMING HAND WASH conforms with all statutory environmental requirements. This product is independently certified by GECA as environmentally preferable. FOAMING HAND WASH has been made from ingredients that have been chosen to give the following properties:

- ✓ Contains biodegradable surfactants
- ✓ No added phosphates
- ✓ Skin friendly pH
- ✓ Non-hazardous

What is GECA?

GECA or Good Environmental Choice – Australia Limited, is a not-for-profit, membership-based entity established to recognise and promote environmental excellence in goods and services available to Australian customers. The core activity of GECA is the establishment of product (and service) standards, and the certification of products which comply with those standards.

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996

SAI Certificate No.: QEC7358

Application

- FOAMING HAND WASH is only for use in special 'foaming' hand soap dispensers available from Agar Cleaning Systems. Add the product to the reservoir in this type of dispenser.

SPD270R

- Wet hands and apply a small amount of FOAMING HAND WASH to the hands
- Rub hands to spread the foam
- Rinse hands and dry. FOAMING HAND WASH will quickly float away dirt and grime.

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.

Disposal Information

1. Unused product -

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container). If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the waste water.

Remember, do not mix different cleaning products together during disposal!

2. Empty packaging –

Bottles and drums -

Our 5L and 20L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system.

FOAMING HAND WASH containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste.

Cardboard cartons -

Our cartons contain a minimum of 70% of recycled cardboard and/or paper. Used boxes should be flattened and recycled in OCC (old corrugated cardboard) or mixed waste paper recycling programs.

Available in: 5L, 20L

Dispensing Accessories:

Foaming Soap Dispenser, white plastic, 1L code – SPD270R

New Foaming Soap Dispenser, long, white plastic, 1L code – SPD3R

20L Drum Tap – Code DTAP
