

What is Fresh Mop?

A fragrant, concentrated cleaner designed for cleaning polished floors by mop. It provides a pleasant perfume without leaving any residual films on polished surfaces.

Key Benefits

- ✓ Highly active, mildly alkaline detergent
- ✓ Safe for use on sensitive surfaces
- ✓ Ideal for mopping – rinse free
- ✓ Effective in hot or cold water
- ✓ Based on regrowable raw materials
- ✓ Economical, non-toxic and mild

How Does It Work?

FRESH MOP is a lemon-scented mildly alkaline cleaner that will remove fats, oils, dirt, spillages, vehicular road dirt, floor traffic, soilage and spills of all kinds.

For Use On...

Polished floors, tiles, fittings, windows, ducting, walls, and paintwork. FRESH MOP is safe on terrazzo, marble and slate, cars, and trucks. FRESH MOP is ideal for any surface not harmed by water.

Technical Data

Composition

FRESH MOP is a clear red liquid containing a blend of biodegradable non-ionic and anionic detergent concentrates to penetrate and remove both organic and inorganic soils. It also contains a high percentage of essential lemon oils to produce a fresh citrus fragrance, together with water softeners and colour. It lifts greasy soils and rinses them clear away.

Properties

COLOUR – Mobile red liquid
ODOUR – Fresh lemon scent
pH = 9.5 – 10.8

FOAM – Solutions exhibit good foam levels high foam stability

Environmental Care

FRESH MOP conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. FRESH MOP is non-flammable, phosphate-free, fully biodegradable and based on natural, regrowable resources.

FRESH MOP containers will be cleaned and reused if returned to Agar Cleaning Systems, significantly reducing plastic usage and waste. They can also be recycled.

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.

Colour Coding

Product identification is made easy with the Agar Colour Coding system. We have 11 different categories of products that are identified by colour and number. The product itself has this colour. Also, the colour and number are shown:

1. On the bottle label as supplied.
2. On the matching Dispenser Spray Bottle.
3. On the product chart for Colour Coded Cleaning

This system has benefits of reducing the chance of using the wrong product, making compliance and staff training easy, showing that the correct products are being used and providing information about usage, dilution and first aid.

Product	Code Colour	Code Number	Type
FRESH MOP	pink	1	All purpose and floor cleaners

FRESH MOP is a Colour Code 1 (pink) product.

Quality

The design, manufacture and supply of all Agar chemical products are controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".
First Certified: 30 April 1996 SAI Certificate No.: QEC7358

Application

- For general cleaning of floors, walls, glass etc. dilute 1 part of FRESH MOP with 50 to 100 parts of water, depending on soilage. This is about ¾ cup to ⅓ cup per wringer bucket of water.
