

What is HF Detergent?

HF DETERGENT is a reactive cleaner which rapidly lifts dirt, oil and grease from painted and metallic surfaces.

Key Benefits

- ✓ HF DETERGENT breaks down and washes away caked-on dirt
- ✓ HF DETERGENT has a thousand and one uses in workshops, factories, garages – in fact, anywhere you find dirt, oil and grease.

How Does It Work?

This concentrated solvent detergent:

- Rapidly loosens dirt and soot allowing it to be washed away
- Is very versatile and excels in a variety of cleaning tasks
- Has low suds – ideal for use in autoscrubbers

For Use On...

HF DETERGENT is an alkaline solvent cleaner suitable for use on all washable surfaces. It will remove the toughest dirt, mud, oil films, grease, grime and soot from floors, equipment, machinery, painted walls, vehicle panels and wheels, quarry tiles, glass and washable synthetic-fabric upholstery.

HF DETERGENT may be used in mop buckets, autoscrubbers and steam cleaners, as well as by spray-and-wipe.

Technical Data

Properties

COLOUR – Transparent fluorescent red-orange liquid

ODOUR – Slight solvent odour

pH = 12 – 13

FOAM – Medium foam of low stability

Environmental Care

HF DETERGENT conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. HF DETERGENT is non-flammable and biodegradable. HF DETERGENT containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

Colour Coding

Product identification is made easy with the Agar Colour Coding system. We have 11 different

categories of product that are identified by colour and number. The product itself has this colour. Also, the colour and number are shown:

1. On the bottle label as supplied.
2. On the matching Dispenser Spray Bottle.
3. On the product chart for Colour Coded Cleaning.

This system has benefits of reducing the chance of using the wrong product, making compliance and staff training easy, showing that the correct products are being used and providing information about usage, dilution and first aid.

| Product | Code Colour | Code Number | Type |
|--------------|-------------|-------------|----------------------|
| HF DETERGENT | orange | 7 | Heavy duty detergent |

HF DETERGENT is a Colour Code 7 (orange) product

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996

SAI Certificate No.: QEC7358

Application

- For cleaning surfaces with LIGHT SOILAGE – dilute 1 part HF DETERGENT to 60 parts with water
- For HEAVY SOILAGE – dilute 1 part HF DETERGENT to 4 parts with water
- On vehicles, rinse the HF DETERGENT solution off the paintwork and metal surfaces before it dries out
- Apply the HF DETERGENT solution using a spray mop or sponge, and scrub lightly, then rinse off or wipe clean using mop or a clean cloth.

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.

It is suitable for cleaning walls, ceilings, floors, sinks, cupboards, baths, showers, car and truck engine bays, stainless steel, glass and porcelain. HF DETERGENT is great for cleaning painted surfaces in preparation for re-painting.
