GREEN CLEANING RANGE

At Agar, we understand the growing concerns surrounding the environment and the importance of adopting environmentally preferable practices in every aspect of our lives. As a responsible and innovative company, we are proud to present our cutting-edge Green Cleaning Range – a perfect blend of uncompromised cleaning power, sustainable ingredients, and efficient practices, all tailored to ensure a healthier, greener, and cleaner world for future generations.

The Benefits of Green with Agar

- ✓ Reduces environmental impact
- ✓ Reusable & recyclable packaging
- ✓ Independently certified
- ✓ Biodegradable surfactants
- ✓ Socially responsible
- ✓ Safe for operators
- ✓ Highly effective products
- ✓ Colour coded
- ✓ Non-toxic
- ✓ Chlorine free
- ✓ No added phosphates

GECA Certified Products

All products in Agar's Green Cleaning Range have been independently certified through Good Environmental Choice Australia (GECA), Australia's most stringent and highly regarded ecolabelling program.

Using products certified by GECA provides confidence for clients requesting the highest standard of environmentally preferable solutions.

GECA is an independent, not-for-profit organisation and is internationally recognised as the only program in Australia that is a member of the Global Ecolabelling Network.

GECA has no ties to the cleaning industry and funnels all its proceeds back into producing ecolabelling programs.

GECA's standards for commercial cleaning products are more rigorous than any other Australian ecolabelling program and are extremely difficult to achieve.

GECA not only takes into account product factors, such as the ingredients used, but also the health effects of using each product and the social impacts of manufacturing it.

By choosing our Green Cleaning Range, not only do you contribute to preserving the environment, but you also save money while still maintaining the highest standards of cleanliness, making it the perfect choice for those looking for more sustainable operations with minimal environmental impact.

GECA Accreditation Requirements

- Use only GECA accepted raw materials
- Products to provide excellent performance
- Surfactants that are proven to be biodegradable both in the presence and absence of air
- Packaging is proven to be recyclable and displays the recycle logo
- The company has proven to be environmentally responsible, i.e. has not infringed any EPA regulations

Pollution Minimisation

- Process & waste control
- Reuse & recycle packaging
- Minimising toxicity at all levels
- Recyclable dispenser bottles

Reducing our Carbon Footprint

- Producing concentrated products that reduce packaging, water and water consumption
- Phasing in more efficient fleet vehicles and consolidating freight loadings to reduce the number and extent of journeys
- Identifying and eliminating unnecessary use of energy, including lighting, computers and appliances, and heating and cooling

GREEN CLEANING RANGE

Environmental Commitment

Agar is working towards a better future, based around the preservation of our natural resources and surroundings. We have long emphasised the importance of formulating our complete product range to be safe for both the environment and users. The company continues to implement programs internally to actively improve its impact on the environment.

Agar has tapped into advanced technologies and the finest natural ingredients to create ultra-concentrated cleaning agents, ensuring maximum efficiency and minimum waste. All of our green cleaning products cover the most common cleaning applications and contain biodegradable surfactants, no added phosphates, and are non-toxic with a focus on renewable resources and reduction of waste.

Dispensing Systems

Agar's range of Environmentally Preferred Cleaning Products are highly concentrated to reduce packaging, water cartage and freight.

In order to ensure products are correctly diluted, a variety of dispensing equipment is available from Agar. These systems increase efficiency, reduce waste and minimise cross contamination occurrences and OH&S risks. Dispensers can be automated or manual and support Agar's Colour Coded Cleaning System.

GREEN CLEANING RANGE

ALL PURPOSE & FLOOR CLEANERS

PH-7 A mild detergent designed to effectively clean all surfaces and is safe on terrazzo, marble or ceramic tiles. This citrus-boosted and highly concentrated formula offers cost-effective cleaning performance and is verified to comply with the highest environmental standards.
Perfume | Orange Peel pH Level | 6.6 – 8.0 Sizes available | 5L, 20L

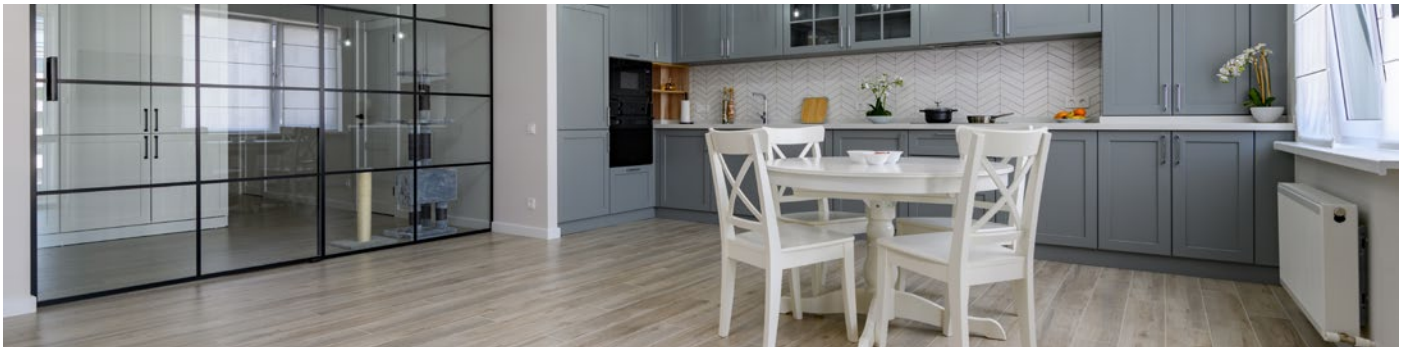
SPRUCE Environmentally preferred multi-purpose detergent for all washable hard surfaces. Spruce is extremely versatile, hypoallergenic and promotes good indoor air quality. If you can only use one product for everything, this is it.
Perfume | Vanilla pH Level | 8.2 – 9.5 Sizes available | 5L, 20L

SPRAY & WIPE CLEANER

CITRA-MIST A highly effective and fast-working spray and wipe cleaner which dissolves and removes soilage from all hard surfaces. It is made using organic, renewable ingredients and is great value for money; diluting up to 1 in 20.
Perfume | Citrus pH Level | 9.0 – 11.0 Sizes available | 1L, 5L, 20L

DISINFECTANT & ANTIBACTERIAL CLEANER

KURANDA A specially formulated commercial-grade disinfectant that is boosted with a detergent to clean and disinfect at once. It leaves surfaces clean and disinfected, but also freshened with a delightful floral fragrance.
Perfume | Sweet floral pH Level | 5.8 – 6.5 Sizes available | 5L, 20L



GREEN CLEANING RANGE

SHOWER & TOILET CLEANERS

FRESCO An all-purpose washroom detergent. A powerful formula based on plant-derived acids and surfactants that will clean toilets, showers, baths, basins, urinals, ceramic tiles and fittings. Cuts through soap scum and body fats with ease. Dilutable for superior economy. No added phosphates, chlorine or inorganic acids.

Perfume | Lime **pH Level | 2.0 – 3.5** **Sizes available | 1L, 5L, 20L**

SEQUAL A cleaner for toilets, urinals, tiled floors, walls, baths, basins and showers. Its thick formula clings to steep surfaces to provide prolonged soil attack, dissolving all types of deposits from porcelain, ceramic and stainless steel surfaces.

Perfume | Floral **pH Level | 1.8 – 2.8** **Sizes available | 5L, 20L**

SHOWER STAR A concentrated bathroom cleaner with naturally occurring mildew and mould killers. Works without scrubbing, and rinsing is not normally required. Excellent on showers and baths and other bathroom fittings and fixtures.

Perfume | Citrus **pH Level | 2.0 – 2.8** **Sizes available | 1L, 5L, 20L**

GLASS CLEANER

BELLEVUE A glass cleaner that rapidly removes grease, grime and fingerprints from windows and mirrors. It is a concentrated water-based detergent formulated to be safer for people, property and the planet and will get the job done quickly and with sparkling results.

Perfume | None **pH Level | 9.0 – 10.5** **Sizes available | 5L**

GREEN CLEANING RANGE

HEAVY DUTY DETERGENT

ENYCLEAN A heavy duty detergent and grease-remover with environmentally preferable ingredients. It is a fast-acting, powerful cleaner for a broad range of cleaning applications. Remove grease, oil, greasy cooking fats and smoke films from floors, equipment, machinery and ceramic tiles. Non-caustic.

Perfume | None **pH Level | 13.0 – 14.0** **Sizes available | 5L**

CARPET CLEANER

GREEN'N'GOLD A uniquely formulated and environmentally preferable detergent suitable for cleaning carpets by hot water extraction. It contains fast-acting cleaning agents and is pH controlled to be safe to use on 100% wool carpets, nylons and all washable synthetic fibres.

Perfume | Citrus **pH Level | 5.5 – 7.5** **Sizes available | 5L**

PERSONAL CARE

FOAMING HAND WASH A non-thickened liquid hand soap designed to be dispensed from special foaming hand soap dispensers that deliver the soap in the form of a foam rather than a liquid or lotion. Easy on the skin and suitable for frequent use.

Perfume | Sweet **pH Level | 5.0 – 6.0** **Sizes available | 5L**

GREEN CLEANING RANGE

WARE WASHING

DISH-KLEENA A GECA-certified, plant-based and high-foaming neutral detergent. It offers an exceptional clean that sparkles on glass, china, and metal surfaces and leaves hands feeling soft. It is economical to use, with a subtle lemon fragrance to delight your senses.

Perfume | Subtle lemon pH Level | 7.0 – 8.5 Sizes available | 5L

BIOLOGICAL CLEANSER

BAC2WORK Harnesses the power of good bacteria to digest organic soilage and remove the source of unpleasant bathroom odours. Sustained attack – keeps digesting waste matter until the soilage is gone. This solution is proven effective on washrooms which have long been plagued by very strong smells and soil other products have been unable to remove.

Perfume | Mint pH Level | 5.0 – 9.0 Sizes available | 1L, 5L

LOW IMPACT EXTERIOR CLEANER

POWERDET ECO A unique and completely different from other detergents. It is exceptionally low in aquatic toxicity, unlike standard detergents. It is ideal for cleaning surfaces near natural waterways such as rivers or seas, as well as over land. Approved for release directly into the sea.

Perfume | Odourless pH Level | 7.0 – 8.0 Sizes available | 5L, 20L
