GRILL CLEAN

Hot Plate, Grill & Oven Cleaner

Product Data Sheet | Product Code: GRI | Issued: March 27, 2026

What is Grill Clean?

GRILL CLEAN is a fast-acting, concentrated detergent which is designed for removing fat, grease, carbon and burnt-on food residues from ovens, grills, hotplates and deep fryers. GRILL CLEAN is ideal for use in all kitchens as well as on outdoor barbeque hotplates and grills.

Key Benefits

- ✓ Concentrated
- ✓ Fast acting
- ✓ Attacks fat and grease
- ✓ Removes burnt-on foods

How Does It Work?

GRILL CLEAN contains caustic potash to rapidly attack fats and burnt-on protein residues. The selected surfactants in GRILL CLEAN disperse and emulsify fatty, oily, proteinaceous and carbon residues, allowing the surface to be rinsed clean after scrubbing.

For Use On…

Ovens, grills, hotplates, deep fryers and barbeques.

Technical Data

Properties

COLOUR – Transparent orange liquid
ODOUR – Faint solvent
pH = 13.5 – 14.0

Dangerous Goods Classification

GRILL CLEAN is a Class 8 corrosive liquid.

U.N. No: 1814	CLASS: 8
PACK GRP: II	HAZCHEM: 2R

Environmental Care

GRILL CLEAN conforms with all statutory environmental requirements. It is based on effective ingredients selected to perform efficiently so there is no waste or damage. GRILL CLEAN is non-flammable and biodegradable. GRILL CLEAN containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".
First Certified: 30 April 1996 SAI Certificate No.: QEC7358

Application

WEAR SAFETY GLASSES & GLOVES when using GRILL CLEAN.

Apply GRILL CLEAN by squirt bottle supplied by Agar. Do not use spray bottle.

Ovens:

Preheat oven to 60°C then turn off. Apply neat GRILL CLEAN onto surfaces and leave 5 minutes to activate. Loosen carbon residues with stiff brush or scraper. Wipe up dissolved solids with damp cloth then rinse thoroughly with clean water.

Grills & Hotplates:

Turn hotplate off after use and allow to cool for 5 minutes. Surface should be warm but not at full heat. Scrape food residues off then apply neat GRILL CLEAN. Leave wet to activate for 10-15 minutes. Scrub with brush, spatula or griddle pad then wipe clean with cloth. Rinse well with potable water. Brush surface with cooking oil.

Deep Fryers:

Cool and drain cooking oil. Partly fill fryer with cold water and add GRILL CLEAN at the rate of 40ml per litre of water. Fill fryer with water to the upper oil level and bring to boil. Simmer until the surface is clean. Brush any other greasy surrounding areas with the solution. Drain solution while adding cold water at the same time to reduce the shock of the temperature change. Finally, rinse with clean water to remove all of the solution.

- ➢ GRILL CLEAN is excellent on steel, stainless steel and enamel surfaces.
- ➢ Do not apply to aluminium or painted surfaces.
- ➢ If squirted on aluminium by accident, rinse off thoroughly with water before it dries on the surface.

Storage

GRILL CLEAN is stable for 12 months. Store in the original sealed container and keep out of direct sunlight. Also avoid storing the product in extremes of temperature; try to keep it between 10- and 30-degrees C.

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.

Disposal Information

1. Used solutions -

Used Solutions of GRILL CLEAN should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rainwater and ultimately lead to the local river system.

2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container).
If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the wastewater.

Remember, do not mix different cleaning products together during disposal!

3. Empty packaging

Bottles and drums

Our 5L and 20L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. GRILL CLEAN containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

Cardboard cartons

Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 5L, 15L
